SEAN CONNER

Location: Diamondhead, MS (USA)

Senior Analytics Engineer with six years productizing parcel-industry analytics — ships R packages, Python data pipelines, and reusable analytical frameworks at Fortune-100 scale. Public-policy researcher by training; engineer by trade.

PROFESSIONAL EXPERIENCE

Aug. 2020 | Present

Senior Analytics Engineer

Green Mountain Technology — Remote full-time

Promoted: Solutions Engineer (2020) → Solutions Engineer II (2022) → Senior Analytics Engineer (2025).

- Author and maintain two production R packages — a Shiny pricing-input application and a shared utility library — together comprising 100+ exported functions and 30+ Shiny modules powering rate management and analytics across the customer portfolio.
- Engineered a reusable package-consolidation analysis framework deployed across multiple Fortune-100 engagements; surfaces multi-million-dollar shipper savings opportunities by modeling tens of millions of package-level shipments against contractual rates with custom dim-weight, fuel, and bundling logic.
- Lead RFP and carrier-bid evaluations for Fortune-100 clients; built modular SQL frameworks modeling 100M+ package-level scenarios with custom surcharge, fuel, and incentive-tier logic to deliver negotiation-ready rate-card summaries.
- Designed and own a SQL schema for managing customer contract pricing parameters, with triggers, dynamic views, insert-routing, and validation UDFs enforcing data quality at write time.
- Authored a tSQLt unit-test suite (hundreds of tests) covering charge derivation and rating logic across the carrier-implementation matrix; protects nightly DW refreshes from regression.
- Engineered an event-driven webhook ingestion pipeline with payload-quality validation; transformed nested JSON into STAR-schema fact and dimension tables powering rate-shop verification.
- Built a natural-language SQL interface over the enterprise portfolio's shipping-charges data using Posit's querychat (Python / Shiny + Ibis); engineered a domain-grounded system prompt and structured data dictionary that lets non-technical stakeholders query the warehouse in plain English.
- Authored a small library of production Claude Code skills automating customer-contract parsing-and-loading (PDF / Excel / CSV → schema-aware SQL inserts), collapsing a multi-hour manual workflow to minutes.
- Architected a dlt → dbt → Dagster ELT platform spanning 100+ models and dozens of Python extraction assets; orchestrates daily refresh of customer-warehouse data feeding downstream analytics, forecasting, and BI extracts.
- Led operations-wide Git/GitLab rollout — authored canonical onboarding documentation, ran live training, and established branching and merge-request conventions adopted across analytics.

July 2017 | Aug. 2020

Research Associate / Graduate Research Assistant

MS State University - Stennis Institute of Government — Starkville, MS

- Directed multiple research projects as PI/Co-PI, applying factor analysis and regression modeling to produce state-level program inventories and organizational reports.
- Built Shiny web applications and survival / event-history models to deliver stakeholder insights; presented technical findings at national conferences.

EDUCATION

Anticipated 2027

MS State University
Ph.D., Public Policy and Administration (A.B.D.) — Starkville, MS

GPA 4.00 / 4.00

Aug. 2016 | Aug. 2018

MS State University
Master of Public Policy and Administration (MPPA) — Starkville, MS

GPA 4.00 / 4.00

Aug. 2010 | Aug. 2014

University of MS
Bachelor of Arts in Political Science — Oxford, MS

GPA 3.34 / 4.00

LEADERSHIP & AWARDS

Green Mountain Technology
Senior Analytics Engineer — Remote full-time

- Most Valuable Player (MVP) Award — peer-nominated, leadership-selected; one of only two awarded company-wide annually. Recipient in 2022; nominated every year since.
- Discretionary Executive Leadership Bonus for Innovation — recipient three consecutive years (2022–2024).

MS State University
Student — Starkville, MS

- Outstanding Graduate Student (2018).
- Student Representative for MPPA program (September 2017 – May 2018).
- The Honor Society of Phi Kappa Phi (2017-2018).
- Best Graduate Student Paper / Presentation at MS Political Science Association Conference (2018).

University of MS
Student — Oxford, MS

- Dean's List (four semesters); Provost Scholar (2010–2014); Pi Sigma Alpha Honors Society (2014).
- President of UM Model Senate (Fall 2013); university delegate to National Model United Nations, NYC (2010).
